

Reading Comprehension :
Read the text then do the following activities

Over the last century, there have been many changes in the way we live. Obviously, it is hard to compare the life of the ancient people and the life of the people of the twenty first century because so many changes have occurred.

To start with, people were not able to travel such long distances in such short period of time. The planes were not that popular then because **they** used to be a very expensive means of transport. Nowadays, we have become very mobile. We have fast and comfortable cars and more and more people also travel by plane.

Moreover, in the past people had to work much harder as they did not have tools which made **their** work easier. Today, most of the difficult and dangerous work is done by computers and other machines.

In the past the conditions of living were not as comfortable as they are now. There were not bathrooms and running water in many houses, besides many people could not afford household appliances like fridge, TV set or vacuum cleaner because they used to be luxurious goods.

Another difference between living now and in the past is the fact that nowadays the access to education is much easier. In the past, there were fewer schools and the quality of the education they provided was much poorer. Besides, nowadays it is much easier to find the educational materials that you need thanks to the Internet.

A- Comprehension/Interpreting :(7Pts)

1- Give a suitable title to the text.
