

Me my abilities, my interests and my personality.

Second generation.

first term project

The Algerian ministry of culture is organizing a national contest to elect the most colorful ,expressive and richest region which represents most the Berber civilization . Write an article illustrated with pictures to introduce your region and to represent our ancestors' values and traditions.

Situation one: you read a newspaper article which speaks badly about today's teenagers. You don't agree with it. Write a reply which you post on the web to save the teens reputation. Talk about how amazing teens can be. (What they can do and how they can change the world of tomorrow)

Situation two: you're proud to be a teenager. You want the world to know that. Write a report in which you describe yourself and friends characters, abilities, inabilities, specificities and magical world.

Situation three: The editor of my school magazine asked me to write an article about Mohamed Farah Djelloud. I decided to present his profile in order to make all my schoolmates see what a 2nd year primary school can do. I want to make them understand that reading is important and necessary for the development of individuals and nations.

Situation four: My school is going to participate in an international competition in Dubai for the best world reading Challenge Poster. The winning poster will be awarded \$50.000 prize and will be published by all the media. (web, TV, press...)

Practice:

-Task one:Pair work:

T asks some questions:

- What's Karim interested in?
- What game does he prefer?
- How often does he play it?
- what's Amal interest?
